

Errata for §170.302 (m) Patient specific education resources

The purpose of this document is to record known technical corrections to v1.1 of the Patient Specific Education Resources test procedure. Errata for other test procedures are located in separate documents.

Each erratum entry includes the following information:

- Entry number
- The date the errata was added to the document
- The test procedure version and date published
- The test procedure section
- A description of the correction
- The text prior to the revision and the revised text

1. Technical Correction to Document History

Date: December 3, 2010

TP Version: Version 1.1, September 24, 2010

TP Section: Document History, page 6

Description: Updated the Document History table to include changes made to the test data in version 1.1 published on September 24, 2010.

Text Prior to Revision:

Version Number	Description	Date Published
1.0	Approved version published	August 13, 2010
1.1	Removed “draft” from introductory paragraph In the Informative Test Description section <ul style="list-style-type: none">• Added CMS verbiage regarding how the EPs and EHs “should utilize certified EHR technology in a manner where the technology suggests patient-specific educational resources based on the information stored in the certified EHR technology.”• Added/modified verbiage for the Identify and Provide sections In the Normative Test Procedure section <ul style="list-style-type: none">• Added “and the education resources identified in the DTR170.302.m – 1: Electronically Identify Patient-specific Education Resources test” to TE 2.01 and IN 2.01• Added/modified verbiage for TE170.302.m – 1.01 and IN170.302.m – 1.01• Deleted “based on, at a minimum, data elements included in the patients’ problem lists, medication lists, and laboratory test results” in TE 2.01, 2.02 and IN 2.01	September 24, 2010
